The time period for reply, if any, is set in the attached communication.

Office Action Summary

Application No.

10/620,761

Applicant(s)

GUERET, JEAN-LOUIS

Examiner

RACHEL R. STEITZ

Art Unit

3732

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 11 August 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 85-100 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 85-100 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Attachment(s)

- 1) ☐ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)
- 3) ☐ Information Disclosure Statement(s) (PTO/SE/US)
Paper No(s)/Mail Date _____
- 4) ☐ Interview Summary (PTO-413)
Paper No(s)/Mail Date _____
- 5) ☐ Notice of Informal Patent Application
- 6) ☐ Other: _____

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 85-100 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kogyo (JP 63-17031) in view of Gueret (CN1270786A).

Kogyo discloses a device comprising at least two containers (2,2A) configured to be superposable on a stacking axis. One container (2) is configured as a lid with a hinge (9) with the container added thereto. Each container defines a housing. The device further comprises a lid (3) and an applicator member (5c) is secured in one of the housings (see figure 1). The containers pivot about one another about an axis not parallel to the stacking axis and each container except for a bottom container along the stacking axis comprises a bottom wall including a lip (12) configured to overlap with an inside surface of the container below it (see Figure 23). There are at least two hinges (9). The hinges are angularly offset. One of the housings contains cosmetic, and each housing contains only one product (i.e. eyeshadow, or blush). Though only two containers are shown, Kogyo discloses that more containers can be added as desired. Regarding the limitation of the axis of rotation of the hinges not being parallel, it is noted

that in figure 1, the axis of rotation of the hinges are perpendicular and in figures 21-23 they are angularly offset so as not to be parallel. Kogyo does not disclose a receptacle body containing a substance with an applicator member secured to the receptacle body during application of the substance, with a closure cap that is configured to be removably fixed to the receptacle body wherein the receptacle body is of a different shape than the containers.

Gueret discloses forming the bottom of a container (11) such that it may be used as a closure cap for a different receptacle (111) wherein the receptacle body contains a substance (P1) and has an applicator member (20) secured to the receptacle body during the application of the substance with the applicator member and the receptacle (111) body is of a different shape than the container (11) (see Figures 2A and 2B). It would have been obvious to one skilled in the art to make the bottom of the lowest container of Kogyo such that it may form a closure cap to another receptacle and fit it to such receptacle in view of Gueret in order to provide the device with a means for containing a different type cosmetic (e.g. different colored powders).

Response to Arguments

3. Applicant's arguments filed August 11, 2009 have been fully considered but they are not persuasive.
4. In response to applicant's argument that Kogyo nor Gueret can be considered to have suggested at least two containers each defining a housing, each housing containing only one product and configured in such a manner to be superposable on a stacking axis, where each container except for a bottom container along the stacking

axis comprises a bottom wall including a lip configured to cooperatively overlap with an inside surface of the container below it, however, the combination of Kogyo and Gueret do disclose at least two containers (2, 2A) each defining a housing (5), each housing containing only one product (i.e. a blush or eyeshadow) and configured in such a manner to be superposable on a stacking axis, where each container except for a bottom container along the stacking axis comprises a bottom wall including a lip (12) configured to cooperatively overlap with an inside surface of the container below it (see Figure 23).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to RACHEL R. STEITZ whose telephone number is (571)272-1917. The examiner can normally be reached on Monday-Friday 7:00 am - 4:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cris Rodriguez can be reached on (571) 272-4964. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
